

The background of the slide is a composite image. It features a view of Earth from space, showing the curvature of the planet and the blue of the oceans. Overlaid on this is a network of thin, golden-yellow lines that represent a global satellite or data network. The lines are most dense in the lower-left corner, where they appear to emanate from a bright, glowing area that looks like a city or a specific geographic region. The overall color palette is dominated by deep blues and purples, with the golden lines providing a sharp contrast.
